NUMBER 32

Dear Readers/Racial comrades,

Welcome to this the
32nd issue of the worlds longest running skinzine
British Oi.

No.31 was sold out within 2 months of release
and has attracted a vast amount of new subscribers
and customers. If you wish to join the 'British
Oi subscribers army' then read elsewhere for
details.

In this newly laid out issue with improved
high quality we bring you a upto date Bound for
Glory interview, a great interview with rising
land of ice stars 'Swastika' and lots more and
a return of the charts page which was reintroduced
after readers bombarded our office with requests
for it. If you have any, send them in....

One point that has to be made, British Oi
is NOT - R.I.D merchandise although we are
comrades with the R.I.D lads, British Oi isn't
R.I.D itself, but we merely use the same postal
address, so please keep British Oi and R.I.D
orders separate - Thanks.

As we head forth into the spring of 1995 lets
make it a year for us, a year for tradition,
a year for victory. The Police state has shown
over the last couple of months that they plan
to make '95 a rough year for us, with raids being
taken out on prominent figures within our scene,
but lets show the world, that if one man falls,
one hundred will rise up and battle on, we are
all forged from steel, lets make sure we all
show this strength.

Until 33, Der sieg wird unser sein, 14 Words.

10,000 hearts one beat.
We are born to fight and
to die and continue the
flow of our people, the
future is now .So stand
up like men ,and drive
the enemy into the
sea,swear that you will
reclaim what our
forefathers discovered,
explored ,conquered
,settled ,built and died
for. Reclaim our soil!"

RIGHT HANDED NEWS!

Welcome to this issues ultimate news pages 'Right Handed News' which tries to capture everything or most things that are important and going on in our mighty patriotic movement, BUT we can never have enough information to use, if you have anything that would be a interesting article, etc then be sure to send it in, anything goes, such as gigs, new zines etc etc.

Well anyway, enough of this chit-chat and on with the news.....

Great Britain - Well to start this report we bring you important news of recent developments within the Blood & Honour movement.

Three prominent organisers involved in the B&H scene have been raided by the Police for various reasons but namely to seize B&H material, CDs and other political material.

Blood & Honour is as most will know under a new progressive editorial board and was due to have a new issue out around christmas time, Out of the two raids two have been reported to the crown prosecution service and are currently under investigation, but as of yet no charges made.

The Police seized the new B&H zine and I guess more importantly also a batch of new ISD CDs namely the Waterloo Gig by Skrewdriver, which has no doubt put a spanner in the works, but I'm sure it will surface again soon, as for the comrades who were raided, as mentioned there fate is as of yet undecided but, it looks like they will be

made an example of, to anyone who wants to stand up for there beloved race and nation, our traitorous government will try to smash, British Oi! wishes the lads all the best, and watch out for the new B&H out soon from there normal address of BM Box 5608, London, WC1N 3XX or from your local B&H unit/organiser.

We will keep readers upto date with any developments regarding the case....

Belfast Blood & Honour comrades were recently in touch to say to comrades not to write to there Ulster address as used by Loyalist/NS zine 'Ulster Torch' as the Police have shut it down, as allegedly the security forces and the powers that be agreed that Blood & Honour was the only threat left in Ulster, as B&H would become the new terrorists (Christ are these people real?) so any mail to Ulster B&H/Ulster Torch zine should be sent to BM Box 5608, London, WC1N 3XX.

Whilst on the topic of B&H PO Boxes the North East B&H unit recently were in touch and ask us to announce this....Please no mail to be sent regarding Skullhead merchandise as there is none available anymore, all of Onward fanzine have sold out and a new issue won't be out until spring of '95. as the editor is serving a jail term. Please only use PO. Box 86, Sunderland, for B&H info, NO SAE no reply.

THE REDS!—

Right handed news

also from the North East it is announced Skullheads last recording 'Victory or Valhalla' will surface on either a "12 or mini CD in the future. It has been released on vinyl through Rebelles Europeens but British Oi advises readers to steer clear of Rebelles after several readers have been ripped off, if any other readers have any news on Rebelles activities, we'd like to know.

Onto music...English Rose have just had a new single released on new French label 'Boha Records' and features 2 tracks 'Choose Your Side & White & Proud' which can be bought for £3.50 from PO Box 19, Coalville, Leics, GB.Squadron have been busily gigging across the globe, firstly the White Xmas, see review, also out in Italy in late Jan with bands M-Rossa from Lucca Italy, Archivum (Hungary), Corona Ferrea and ADL 122 from Milan which went great, 400 in attendance with large contingents from Hungary and Switzerland making the journey across to it. Inter Milan hooligans, only a handful tried to cause some trouble outside the gig but were apparently taught a lesson in fighting tactics by the strong Veneto Fronte Skins and left quite hastily. Squadron have also gigged in Poland & Czech Republic in the same weekend and played a gig in Grimsby, in England aswell. They also have a new single out on US label Krowbar records called 'Unter Dem Hakenkruez' and costs £3.50 from BM Box 46, London, WC1N 3XX, this is Squadron Services.Celtic Warrior have finally received there debut CD from German label 'Di al Records' called 'We will never forget' which is tipped to be one of the most sought after CDs ever with its classic music on it, get it now for £12 from PO Box 214, Cardiff, South Wales. They also have t-shirts, sweatshirts etc out, send a SAE for a list. Celtic Warrior fans will be able to catch them as they prepare for gigs in February and March, contact your local organiser for details etc.

We'd like to point out that on March 13th it will be the third anniversary of the deaths of the Violent Storm band members namely Paul Casey, Darren Sheeley, Brian

Sheeley and close friend to the band Jask. Your memories will never fade, sleep well my brothers, sadly missed, but never forgotten.

Section 88 one of the new breed of bands for '95 were recently in touch and sent a practice tape which showed some good signs and lets hope they will start gigging soon.

Theres a new band forming who needs some band members, they require a guitarist and drummer and would like to hear from anyone interested in forming a NS skinhead band, either write to British Oi or contact one of the West Country skins at any gig.

Germany has been busy as per usual with some exciting new merchandise on the market. **Noie Werte** have released a wide range of German British Friendship & Noie Werte T-shirts with some very eye catching designs to coincide with the recent release of G.B.F Vol.2 called 'Songs of Hope'. Write to them at Postfach 810264, 70519 Stuttgart, Germany for a catalogue.**Freikorps** the increasingly popular nationalist band from Reinfeld played a gig in Wilhelmshaven in front of 300 people alongside German band 'Bootsbrothers', also Freikorps are hot out of the studios with a speedy realese of the Mini CD 'Abschied' which only has 5 tracks but is really good and features one track with Ken of Brutal Attack. Also Kai of Freikorps has recently released a CD called 'Asgard' which is ballads and also to coincide with that a Asgard ballad video of apparently extremely high quality. For all these and more contact Kai, at Postfach 1138, 23854 Reinfeld, Germany.

Also recently Endstufe have recorded a new CD for release soon on Rock O Rama and Sturmtrupp are planning a new CD in the near future.

Denmark well not too much happening band wise but British Oi recently met the lads who record the great videos for NS88 productions and received the latest catalogue, which contains of course a wide amount of videos, plus CDs and yes, your very own British Oi, write now for a catalogue to NS 88, Poste Restante, 3400 Hillerød, Denmark. They have the latest White Xmas gig for sale amongst others.

Czech Republic - held a memorial concert for Joe Rowan the murdered singer of USA skin band Nordic Thunder with bands 'Hoste, Diktator, Buldok, Squadron & Konkwista 88' which was successful with over 300 attending and with a pint of bier at 30p a large amount was consumed, about 9 different nationalities attended making it truly a united show for Joes memory.

Sweden has seen more activity with the release of a global compilation on Motstand records called 'White Pride World Wide' - see reviews, which includes Rahowa, BFG, Aryan, Swastika and the Bully Boys amongst a few...In Sweden they have now officially launched a new movement called Nordland which will hopefully produce a glossy magazine in 3 or 4 different languages and release a wide range of merchandise. For more info write Box 6035, Sodertalje, Sweden. Also released was a Swastika and No Remorse Live CD.

France - has seen new skinband Viking release a 6 track demo with tracks including 'Chaos' 'Skin Normandie' 'Hooligans' and the catchy 'Stop Immigration' track winning the best track of the demo award. Viking recently also played at the White Xmas gig.

Australia has seen the return of one of its prominent figures being Scott the singer for great Aussie band 'Fortress' after a holiday to the USA and Canada on which while in Canada Scott was involved in a bar room brawl which ended up with Scott being imprisoned, but comrades rallied around and Scott was bailed out and escaped back to Australia. While in the USA Scott has made a deal with Resistance Records to record a new CD this summer, but meanwhile to keep fans happy Fortress plan to record two tracks for a Swedish compilation CD, tracks being 'For faith and for folk' and 'the truth sets you free' being described as a different style to previous recordings. They also played a gig in Adelaide on December 3rd which apparently went really well. For more info on Fortress and for

merchandise etc write to PO Box 553, Moorabbin, VIC 3189, Australia.

United States of Amercia - well as per usual the states has been busy, Resistance Records have released new CDs by rock group 'New Minority' called 'White Straight & Proud' which British Oi! has heard and is somewhat pop music rock but, it must be said, we need this type of band to attract the masses, rather than just the skinhead minority, also Resistance have released new band 'Berserkr's debut CD 'Voice of our ancestors' which is rumoured to be one of Resistances best to date, Berserkr are made up of some of the old mid town bootboys band, but I'm told the CD is quite heavy in sound rather than southern rock style like the MBB played. Resistance Magazine is also out No.3 which has a fitting tribute to Joe Rowan, a Berserkr interview, and a hellava lot more.

Bands around the world have also been recording for the Project Tribute CD being put together by Resistance and Pheonix Records with so far Britains very own Squadron doing

three tracks including Skrewdrivers classic 'I can see the fire' and the popular 'Stand Proud', also BFG will be recording two Skrewdriver numbers for it which maybe 'Streetfight' and 'If theres a riot' and will apparently be recorded as close to the originals as they can.

BFG have also recorded for a forthcoming comp CD from German label 'Excalibur' with tracks called 'Back in the Fatherland' and 'Widerstand' sung in German by Ed the BFG guitarist.

BFG have also had some interesting times in there state as of lete.

A record store that had sold out of there 'Fight Goes On' CD asked the band to come to the shop to make an appearance to all the young fans of the band, a group of about 15 baldies (Bald headed druggy types) turned up to cause trouble with the ringleader being black. They tried to argue with BFG but when out argued they were going to resort to violence, 15 against 3 of BFG but they bottled out, the black then admitted he had all the BFG LPs and he had Brutal Attack and Skrewdriver patches on his jacket and the weird thing of all was he had a tattoo of Ian Stuart on his arm, pure insanity, in the end the baldies were kissing BFGs arses and left without a word, the record had no damage don to it, so hes happy and supports Resistance all the more, apparently this black ringleader also is a reader of English skinzine 'Rampage' which shows you never know who your dealing with.

I can just picture Squadron signing pictures and LP covers in Virgin records in downtown London, only 15 opposition, if Squadron did do it, I'd say more like 1500 were turn up to stop it. Well done BFG.

A comrade to British Oi is trying to set up a large directory of NS/Nationalist addresses for publication in 'The White Pages', instead of 'Yellow Pages' get it?

Well Miles would like to hear from you if you have a zine/band etc, write now to Miles, PO BOX 24051, Federal Way, 98093 1051 - USA.

Thats all folks, more news next time.

Record Reviews

White Pride - World Wide - Nordland Records.

Theres a few things about this CD that are truly marvellous. First off the very catchy cover and sincere dedication to Joe Rowan and then theres the tracks. Some already released by Resistance, others new. 16 tracks in all by bands such as Aryan, Centurion, BFG, Rahowa, Konkwista 88 and Freikorps but the CD has to go to Swastika who really are great, hard hitting skinhead classics, roll on Vol.2. 9/10.

Freikorps - Abschied - Excalibur Records.

5 tracks of exciting German Skin music. All I can say is catchy due to the language barrier but well worth adding to your collection, track 5 features Ken of Brutal Attack in a classic number 'Who are you', buy it 8/10.

Squadron - Unter Dem Hakenkreuz - Krowbar Records.

A fast and furious two track single with it being a collectors on red vinyl. Tracks are Unter Dem Hakenkreuz and Just Like sheep, with my vote going easily to Just Like Sheep, a very catchy sing along song, in the same vein as Squadrons last CD. 9/10.

English Rose - Choose Your Side - Boha Records.

Two great Oi! tracks from these likely lads of the Midlands. Another single with two tracks, these being 'Choose Your Side & White and Proud' which are very good and ones to bop along to, one thing that workd in English Roses favour is they play Oi! rather than the thrash most bands are putting out nowadays, refreshing stuff.

9/10.

Video Review -

White Xmas in the Midlands, GB.

Featuring Squadron, Razors Edge and French sons 'Viking'. Over two hours viewing in great quality brings over the great night when over 400 attended this annual do. Viking play a short tight set and get the crowd going with Oi tracks like Chaos and a mixture of French and English material like 'Skin Normandie' & 'Stop Immigration'. Onto Razors Edge whose set includes 'UFF' 'Jobs not immigrants' 'No Room Here' and a rendition of Skrewdrivers 'Free MY land' with Stigger joining in. Lastly Squadron - 75 minutes of the ultimate in White Power music, with tracks like 'Behind a white mask' 'Our time will come' and the 'Final Salute' who can afford to miss this. A NS 88 production. 10/10.

Bound For Glory

'Bound for Glory' have become one of the worlds most known, most popular and most professional bands on our White Power scene to date and recently answered the interview with some interesting replies.

BFG are really starting to break new ground in the states and deserve 100% support from all distributors etc across the world.

All answers by Ed the bands charismatic spokesman.....

1. Ed, whats the current line up?

Ed - Joel (Vocals), Carl (Bass),
Ed (Guitar), Mike (Drums).

2. How come Rich the drummer on
'The fight Goes on' CD has now
left ??

Ed - It was mainly a geographical
problem, Richie lives in Brook-
lyn in New York which is over 1000
miles away from our homebase of
St. Paul. We never really got to
practice, we just got together and
did our thing for concerts where

we meet. We really needed to practice
on a regular basis and to do this
we had to find a local drummer. We
would all like to point out, that
if it weren't for Rich helping us
out, there are alot of concerts and
recordings that we couldn't have
done without him. He really
sacrificed alot and did a great job
for BFG and we will never forget
that. As we are concerned he will
always be a part of BFG.

As for our new drummer, hes quite
incredible, he plays a double kick
like a madman, hes extremely brutal!
It feels real good to be playing
regularly again.

3. How is your latest CD 'The fight
goes on' selling ?

Ed - I don't know the exact figures
but I do know its into its
second pressing, we've sold over
250 in our area alone, so I guess
its doing quite well.

4. As a on looker into the white power scene in the states, tell me, it seems Resistance Records are doing a hellava lot. Are they really doing alot ?

Ed - Resistance really has been treading into new territory and causing quite a wave in the U.S. The major key to the success of Resistance is the professional attitude and onlook they have taken on. Everything is top notch to them, the magazine, the production on the releases, the concerts and the initiatives of getting cassette and CDs in the stores. Another thing is that they have lawyers to do battle for the company against those who would seek to destroy the company. Everything is run quite professional. I believe the left wing agitators really have no way of approaching Resistance and many people in America defend the sale of our products in the name of Free Speech.

Keep in mind, Resistance is only one year old and alot has been accomplished so far.

5. What plans have you for a new CD and will it be in the same vein as 'The fight goes on'?

Ed - We have no name as of yet for our next LP which will probably be recorded next summer, the material is already written, some of the titles are 'Behold the Iron Cross' 'Siegfried' 'Fight On' 'To untamed lands we sail', and we have a unnamed track which deals with our view on the I.R.A and there murder of innocent people.

Musically the new LP will be more technical and heavier than our last and we will have more studio time to produce it and perfect it.

I guarantee the new LP will blow 'the Fight goes on' away.

6. Why then did you decide to go into a heavier style ?

Ed - I firmly believe that harder times, means harder music. And we just let some of our anger and aggression out, in our music.

Also the production was done by a man who knows his work well. Some have tried to classify our music but I think its hard to put a label on us, I don't try to write music in any particular style, I just put my hand on the fretboard and let my fingers do the walking.

7. What gigs have you done recently and which would you consider the best since you've been in Bound for Glory ?

Ed - Our most recent gigs were last fall, the last being Racine, Wisconsin at the big Resistance Records show, before that locally, in California, Detroit and Georgia.

My favourite show we've ever done was in March of '93 in Buffalo, New York, and my favourite overseas was in Denmark June '94.

8. Do you plan anymore European dates ?

Ed - Most definately. So far we've got Sweden and Italy in February and maybe some more later in the year.

9. Could you tell us about BFG merchandise ?

Ed - Yes, we have a wide range of stuff for sale, write to us at PO Box 6773, E.St.Paul, MN 55106, USA for a catalogue.

10. How can you foresee the N.S scene devolving over the coming say 2 years ?

Ed - Its only going to get bigger and better. As conditions in the U.S worsen, tolerance for the system is hitting all time lows and our music and views are becoming more and more accepted. I think it could be quite possible for racial rock to be quite mainstream in 2 years. Theres definately alot of talent that proves we are gaining strength.

Continued overleaf.....

11. What music are B.F.G into and which USA skinbands do you rate as the best ?

Ed - We all listen to a vast variety of music. Speaking personally I delve heavily into classical music and I also enjoy skinhead rock 'n' roll and I guess I've gotten into death/power metal. I especially like the Swedish bands such as The Unleashed, Edge of sanity and Hipocrisy to name a few. The music is extremely aggressive and lyrics are 'norse' based.

The U.S bands I rate are Berserkr, Centurion, Das Reich, Nordic Thunder, Stronghold (The first skinhead death metal band) and another band which I believe haven't recieved enough recognition as they deserve is No Alibi from Buffalo, NY. They're really hard hitting. The U.S really has a great variety of bands and music, which makes the future look good. Another excellant band is 'Day of the Sword' which is a one man band, the LP Scott made is completely incredible.

12. Away from the band, what hobbies have you got ?

Ed - We all work jobs (Actually Carl has two)full time from 40-60 hours a week, we all have families, as all the parents out there will know that this is a task in itself, so after this lot, the band, practice, sorting mail etc not much time is left over. However we all play sports we work out, and we like to go shooting, get tattooed, go to local shows and off course drink a few choice beers with the boys at our local pubs.

13. Any last comments.....?

Ed - Hail Ian Stuart. They say from acorns, mighty oaks grow, I believe Ian is responsible for planting a lot of forests.

THE SS ACTION GROUP

The S.S Action group are a militant organisation in the USA who have made alot of comrades the world over with there bravery in front of our enemies. Pictured above are 3 of the SS Action group at a demo in the US, they show there true feelings by the way they dress as shown.

The SS Action Group are all about unity and spread this constantly through there regular literature which is topped by there informative buletin 'Aryan Action Line' which details there opinions etc and also details recent activities they've been involved in.

They will support any organisation in the USA who has the guts to stand up for the N.S/Nationalist cause but will in no mean terms denounce the movements/groups who aim at destroying the movement, such as conservative KKK groups etc.

They also have a wide range of other literature that they distribute such as 'The New Order' by the NSDAP/AO party, plus numerous items of merchandise like caps, badges, t-shirts CDs etc.

If you want to find out more about the SS Action group write to Ted Dunn, National Director, SS Action, BOX 67, Dearborn Heights, MI 48127, USA.

Be sure to mention you read about them in British Oi, suport them, as they are fighting for you!

THE
BLOOD OF THE VIKING
FLOWS
THROUGH OUR VEINS

Well Spain has in the last year seen an explosion of Nationalist and skinhead activities.

Here we will try to tell you what is happening in the land of sun, sea, sand and sex.....

Amnesty International the so called Freedom movement to help imprisoned and ill treated folk across the world has stated that in Spain, that "Nationalists are a threat to the mere survival of Spain". Don't they understand that Nationalism is about a nations pride/survival.

Well new laws have come into action in Spain, and are anti - racist. It is now outlawed to express your true nationalities feelings.

Skinheads have suffered alot under new laws and at present 30 members of the N.S group 'Accion Radical' are all awaiting trial for illicit association to a NS group. In other

Spanish News

regions the story is the same, white pride being stamped on, with a iron heel.

Recently the drummer of 'Klan' one of Spains No.1 skinhead bands fled the country after being found guilty of assault on a Redskin and was told he would get 3 years but before sentencing he escaped, al for a mere fight, in Britain probably a fine would have been imposed.

Another band member from the up and coming group 'Estirpe Imperial' was given 12 years after a gang fight with comie punks. 12 YEARS! A murder victim doesn't get that here.

But both bands go on with both releasing LPs in the near future.

Division 250 probably the best known Spanish NS skinband have released a debut LP on Rebelles Europeans called (Blood of the conquerors) and plan a new LP with the year on the popular Italian label 'Tuono'.

The strangest thing I have ever heard is the following.....A band called 'Batallon De Castigo' who are all in prison and blatantly NS have applied to the home office to record a LP, but were bluntly turned down, can you imagine a NS skinband in Brixton nick practising ??

Concerning gigs etc, Spain has had its fair share in '94, most memorably the one held by NS grouping 'Bases Autonomas' on Oct.12 to celebrate Spains National Day with 300+ attending.

Back to the political oppression in Spains draconian state...

Well the new laws state that if there is more than 3 people together in paramilitary clothing they are a subversive group and the supposed leader can face upto 6 years imprisonment, what happens when theres a gig ? Do you all get nicked ? Oh well, I said the laws were strange, but then again our laws will probably become the same one day, if they haven't already ?.

Spain is such a beautiful country with a great climate, Spanish skins, love there land, they have showed there love by joining the nationalist crusade to save there land.

Keep the HARD fight - Viva Espania.

SWASTIKA

SWASTIKA are now becoming one of the best known Swedish bands. Spearheading the upsurge in White Power music, sweeping Sweden.

All answers by Matt the singer....

1. When, why and where did you form?

Matt - Swastika formed early '91 in our home town of Linköping. We didn't play our first gig however until Nov '93 with No Remorse and Trueblood and which turned out a excellent debut gig, we were very well received.

2. Whats the current line up ?

Matt - Our current line up is :
Mattias on vocals, Johan on Lead guitar, Bitten on rythm, a new member Micke on Bass and Jimmy

on drums. Over the years we've had two line up changes, one of them recently with Rolle our old bass player moving back to his home town which is a long way from here, so we had to find a new bassist, Rolle is now playing in the band 'Barsarkarna'.

3. Why choose such a radical name?

Matt - We chose the name as it is the symbol for our struggle. The rising sun, and a new dawn for our aryan race. We want people to know where we stand, we hate hypocrites.

4. What gigs have you played and which was the best/worst ?

Matt - Up to now as I write this we have done 5 gigs with bands such as 'Bound For Glory, Celtic Warrior, No Remorse, Squadron, Barsarkarna, Brigad Wotan, Oithanasie etc.

I think our best performance was in Stockholm with Squadron & Asa (Reviewed in Brit.Oi No.30) or in Sollebrunn with No Remorse & Celtic Warrior. In Stockholm about 400 attended and in sollebrunn about 700-800 and both were great.

Our worst performance was absolutely our gig in denmark with B.F.G & Oithanasie. Only three of us made it and had far too much to drink. We all regret the gig, but don't get me wrong, the gig was excellant with BFG and Oithanasie both playing brilliant, a flop for us only, if you have only seen us once and it was at this gig, we are better than that poor performance.

5. We understand you have recorded a full length CD, could you tell us more ?

Matt - Our CD is called 'In Hoc Signo Vincas' and the tracks are (In english)-Call of the reich, The fallens blood, Sweden Awake, Goliats song, Hang em high, race war, Unity, Runes of power and a cover of the Skrewdriver classic - Streetfight.

6. Why such an unusual name for a CD and what does it mean ?

Matt - In Hoc Signo Vincas means 'In this sign shall we conquer' which speaks for itself. Its Latin.

7. Which track do the band consider to be the best track on it ?

Matt - I can only speak for myself but I think Runes of Power and Call of the reich are the best.

8. What merchandise have you out??

Matt - We noe have a split CD out with No Remorse live called 'We play for you', 2 different compilations with 3 & 4 songs on

them called 'Nordland 2 & White Pride Worldwide' and two different t-shirts, and I hope by the time you read this our full length CD. Our merchandise can be bought from Nordland - Box 1088, 11479 Stockholm, Sweden, send a SAE for a list.

9. What bands in Sweden and across the world do you like ?

Matt - I like all the other bands in Sweden like Storm and Barsarkarna etc and enjoy all bands who are seriously into N.S. My favourites are BFG, Centurion, Berserkr, Rahowa, and Nordic Thunder, my favourite Swedish band are Vit Aggression.

10. What plans have you for the coming year ?

Matt - Hopefully to play many gigs, sell alot of records and maybe record some new material.

11. Away from the band, what other hobbies do you have ?

Matt - apart from the band our hobbies include weight lifting, putting out leaflets and racial material etc and generally preparing for RAHOWA.

Also we have jobs which are : I'm a porter, Jim & Johan work in a factory and Micke is a butcher, and Biten is a Carpenter but both Micke and Biten have both lost there jobs.

12. Do you all get together each week for a drink etc ?

Matt - The skins in our town who have been skins for 8-9 years etc all stick together and drink together etc, but lately alot of youngsters are coming onto the scene and we have to take time out to explain our ideas etc and make sure they just don't turn out to be shiteheads, the young ones seem to be popping up all the time now.

13. How can you see the Swedish scene developing over the coming years ?

Matt - We are getting stronger and stronger and the future is ours if we want it to be. We have a great amount of support for our scene and the leaders of racist units in each city are quite advanced in methods of propaganda. We will allHail Victory.....88...

14. What do you think of bands like Ultima Thule who have played Anti racist gigs ?

Matt - Bands like Ultima Thule have sold out and will never mix among our circles again, they are filth. they are now the worst piece of trash in this country. They are greedy capitalists and one day the time will come when they will have to pay for their crimes against our movement.

15. Any last remarks ?

Matt - The Fight Goes On!.
